EDUCATION

Bauman Moscow State Technical University

Specialist of Computer Security

Sep. 2020 - May 2026

Moscow, Russia

VK Technology Park

Systems Architect

Sep. 2021 - May 2023

Moscow, Russia

C C++ Algorithms and Data Structures Computer Networks Concurrency Distributed Systems
Databases Go Communication Skills UX/UI

EXPERIENCE

Distributed Document-Oriented Service

Internship at ProCSy JSC

July 2021 – Sep. 2021

Moscow, Russia

Go Cryptography Document Parsing and Generation Hyperledger Fabric

- Worked in a team of 3 developers to implement the API for a power of attorney management service.
- Learned new technologies and patterns for documenting and testing the code.
- Improved soft skills communicating with the frontend development team and the project manager.

PROJECTS

Social Network

Coursework

Feb. 2022 – May. 2022

Moscow, Russia

Go Microservices TypeScript JSX

- Implemented API for a social network service.
- Built a React-like framework in TypeScript from scratch with jsx and hooks.
- Designed and implemented a responsive website.

Distributed Fault-Tolerance Computing

Coursework

Sep. 2021 – Dec. 2021

Moscow, Russia

C++ Raft gRPC Protobuf Concurrency Distributed Systems

- Implemented Raft for consensus over the tasks for worker nodes.
- Got acquainted with the RPC protocol (and, specifically, with gRPC).

Restock Monitor

School Project

Sep. 2017 – Aug. 2018

Moscow, Russia

Go REST Web Scraping Concurrency Headless Browsers UX/UI

- Developed a multitask web scrapper for more than 100 websites.
- Got used to headless browsers (such as *chromedp*).
- Developed a sophisticated web application for controlling the restock monitor.

ACCOMPLISHMENTS

Second Place in the **Junction** Hackathon 2021 (*Hybrid Event Experience Gamefied Challenge* by Brella)

Nov. 2021

Diploma in the Round 2 among University Students of *International Olympiad in Cryptography NSUCRYPTO*

Oct. 2021

Bronze Medal at **IMC** (*International Mathematics Competition for University Students*) 2021

Aug. 2021

SKILLS

Programming Languages: Go C C++ JavaScript/TypeScript Python Bash

Databases: MongoDB PostgreSQL Redis

Libraries and Frameworks: React Django Flask

Misc.: Linux SQL HTML/CSS Docker Nginx Firebase Protobuf Prometheus Swagger Figma

Spoken Languages: Russian (native speaker) English (fluent) Armenian (basic) French (basic) German (basic)

INTERESTS

Backend Development Highload and Distributed Systems Homomorphic Encryption Abstract Algebra Cryptography
